Concierge Security Services

Third Watch Protection Services offers concierge security to monitor the front lobby of your residential building.

Security guards will behave with the upmost professionalism in their interactions with residents and guests. The concierge security will diligently notify residents upon receiving diverse items, including mail, packages, and dry cleaning. The concierge works as an ambassador that bridges the gap between the residents and the property manager. Third Watch ambassadors will:

- Ensure the security of the building and the safety of the residents.
- Ensure that protocols are followed in case of a fire alarm and other emergencies.
- Manage a professional front desk.
- Take care of the needs of residents and investigate noise complaints.
- Write electronic incident and daily activity reports and submit them to the property manager.

We work closely with our staff, acting as mentors as well as managers and if requested conduct weekly on-site meetings to address and outstanding issues. We also ensure that the site supervisor will effectively communicate and concerns requiring immediate attention.
